

DELHI PUBLIC SCHOOL NEWTOWN
SESSION 2022-23
PRE BOARD EXAMINATION

CLASS: X
SUBJECT: GEOGRAPHY (SET A)

FULL MARKS: 80
TIME: 2 HOURS

Answers to this Paper must be written on the paper provided separately.
You will not be allowed to write during the first 15 minutes.
This time is to be spent in reading the question paper.
The time given at the head of this Paper is the time allowed for writing the answers.

Part I is compulsory. All questions from Part I are to be attempted.
A total of five questions are to be attempted from Part II.
The marks intended for questions are given in brackets [].
This paper consists of six printed pages.

PART I (30 marks)
(Attempt all questions from this Part.)

Question 1

Study the extract of the Survey of India Map sheet No. G43S10 and answer the following questions:

- (i) Give the four figure grid reference of the settlement where veterinary hospital is found and NH 168 passes through it. [1]
- (ii) Calculate the area between the Eastings 65 and 70 and Northings 24 and 28 in Square kilometres. [1]
- (iii) What is the pattern of drainage seen in grid square 6824? [1]
- (iv) State any two features which make Abu an important tourist destination. [1]
- (v) Mention any two features which indicate that the given map region receives seasonal rainfall. [1]
- (vi) What is the purpose of the fireline given in the grid square 6827? [1]
- (vii) What is the Contour Interval of the given map? [1]
- (viii) State any one natural feature and one man made feature in the grid square 6421. [1]
- (ix) What do you mean by the following: [2]
 - (a) 5r to the south of the cart track in grid square 6323.
 - (b) 229 in red colour in grid square 6329.

Question 2

On an outline map of India provided:

[10]

- (i) Shade and label the Thar desert.**
- (ii) Label the river Narmada.**
- (iii) Shade and label the Wular lake.**
- (iv) Mark and label Eastern Ghats.**
- (v) Shade and label a densely populated area in the north.**
- (vi) Shade and label an area of red soil.**
- (vii) Mark with a dot and name Chennai.**
- (viii) Mark and label the Bay of Bengal branch of South West Monsoon.**
- (ix) Mark with a dot and name the offshore oil field.**
- (x) Draw and label Indian Standard Meridian.**

Question 3

Choose the correct option :

[10]

- (i) During monsoon, Mumbai receives more rain than Pune because:**
 - (a) Pune lies on the windward side of the Western Ghats.**
 - (b) Mumbai lies on the windward side of the Western Ghats.**
 - (c) Mumbai lies on the path of the Western Disturbances.**
 - (d) Pune lies on the leeward side of the Aravalli hills.**
- (ii) The Deccan Trap region is characterised by this type of soil:**
 - (a) Black**
 - (b) Red**
 - (c) Alluvial**
 - (d) Laterite**
- (iii) Xerophytic plants are typical of this vegetation type:**
 - (a) Tidal**
 - (b) Montane**
 - (c) Rain forest**
 - (d) Desert**
- (iv) In which type of irrigation, there is no loss of water by evaporation?**
 - (a) Wells**
 - (b) Tank**
 - (c) Drip**
 - (d) Canal**
- (v) Which method of transportation is helpful during calamities?**
 - (a) Airways**
 - (b) Roadways**
 - (c) Railways**
 - (d) Waterways**

- (vi) _____ is the onshore oilfield in India.
- (a) Ranigunj
 - (b) Jharia
 - (c) Digboi
 - (d) Singhbhum
- (vii) Which of the following crops provide oilcake?
- (a) Mustard
 - (b) Pulses
 - (c) Rice
 - (d) Jute
- (viii) The leading producer of wind energy in India is _____.
- (a) West Bengal
 - (b) Karnataka
 - (c) Tamil Nadu
 - (d) Uttar Pradesh
- (ix) Industries with no particular locational factor are predominant is known as _____.
- (a) Large scale industries
 - (b) Mineral-based industries
 - (c) Private sector industries
 - (d) Footloose industries
- (x) Keeping biodegradable and non-biodegradable wastes in different bins is known as _____.
- (a) Dumping
 - (b) Segregation
 - (c) Composting
 - (d) Incineration

PART II (50 marks)

(Attempt any five questions from this part.)

Question 4

- (i) Mention two characteristics of the climate of India. [2]
- (ii) How are the following economically beneficial? [2]
 - (a) Mango showers
 - (b) Western Disturbances
- (iii) Give a geographic reason for each of the following: [3]
 - (a) Annual range of temperature is higher in Lucknow than Mumbai.
 - (b) The Thar is a desert.
 - (c) Shimla is colder than Delhi.

- (iv) Study the climatic data given below and answer the questions that follow: [3]

MONTHS	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
Temp in °C	12.5	15	22	32	37.2	39.8	36.9	33.2	28	26.1	16.3	13.8
RF in CM	2.1	2.6	1.0	0.9	1.7	5.0	18.2	18.6	16.2	0.6	0.4	1.9

- (a) Calculate the mean temperature.
(b) What is the total rainfall received during the summer season?
(c) Name the wind that brings maximum rainfall to the given station.

Question 5

- (i) Write two similarities between laterite soil and red soil. [2]
(ii) Name the following: [2]
(a) The process by which nutrients of soil get percolated down below the soil due to heavy rainfall.
(b) Planting trees in several rows to check soil erosion.
(iii) Give a geographic reason for each of the following: [3]
(a) Alluvial soil is fertile.
(b) Crops grown on red soil need irrigation.
(c) Afforestation prevents soil from getting eroded.
(iv) (a) What is soil erosion? [3]
(b) Mention two causes of soil erosion in India.

Question 6

- (i) What are the temperature and rainfall requirements of Tropical Evergreen forests? [2]
(ii) What is agroforestry? Mention its one objective. [2]
(iii) Give a geographic reason for each of the following: [3]
(a) Trees of mangrove forests have pneumatophores.
(b) Tropical Deciduous forests are commercially most exploited forests.
(c) Babool has long roots.
(iv) State three methods of conserving forests. [3]

Question 7

- (i) What is irrigation? Explain why it is necessary in India? [2]
(ii) Write any two conditions necessary for drilling of tubewells. [2]
(iii) Give reasons for the following: [3]
(a) Sprinkler irrigation is not widespread even though it is an efficient method.

- (b) Inundation canals are not very useful.
- (c) Tank irrigation is more popular in peninsular India.
- (iv) (a) Write two advantages of well irrigation. [3]
- (b) State two methods of lifting water from wells for irrigation.

Question 8

- (i) (a) State two uses of iron ore. [2]
- (b) Name the state which is the leading producer of iron ore.
- (ii) Write two advantages of non-conventional sources of energy. [2]
- (iii) Name the mineral with which each of the following centres are associated: [3]
- (a) Khetri
- (b) Singhbhum
- (c) Mayurbhanj
- (iv) Give a geographic reason for each of the following: [3]
- (a) The Hirakud dam is a blessing for the people in Odisha.
- (b) India has an advantageous position in terms of solar energy.
- (c) Large dams are not safe for the environment.

Question 9

- (i) Name any two agricultural seasons of India with one crop cultivated in each season. [2]
- (ii) Write two differences between subsistence farming and commercial farming. [2]
- (iii) With reference to wheat cultivation, answer the following: [3]
- (a) Mention any two climatic requirements for the cultivation of this crop.
- (b) Which state is the leading producer of this crop?
- (iv) Give reasons for the following: [3]
- (a) Pulses are grown as rotational crops.
- (b) The cost of production of sugarcane is high.
- (c) Regular pruning is done to tea plants.

Question 10

- (i) State two textile industries, one using animal fibre and another using plant fibre and name one centre each for the mentioned textile industries. [2]
- (ii) What is the difference between public sector industries and joint sector industries? [2]
- (iii) Give geographical reasons for each of the following: [3]
- (a) Sugar industry has the tendency to shift towards the south.
- (b) Cotton industries in India have a constant threat of closure.
- (c) Iron and steel industry is considered a key industry.
- (iv) What are petrochemicals? Write two advantages of petrochemical products. [3]

Question 11

- (i) What are Expressways? State one example. [2]**
- (ii) Which physical region of India does not have a well developed railway network. Why? [2]**
- (iii) Mention two advantages and one disadvantage of airways. [3]**
- (iv) Write any three requirements for the development of inland waterways. [3]**

Question 12

- (i) (a) Why should we stop the use of plastics? [2]**
(b) What can we replace plastic with? Explain with examples.
- (ii) State any two ways of reducing waste at home. [2]**
- (iii) What is composting? Write its two advantages. [3]**
- (iv) Give geographical reasons for each of the following: [3]**
 - (a) A banana peel and a plastic bottle should never be discarded in the same waste bin.**
 - (b) 'Use and throw' concept generates more waste.**
 - (c) Roads from plastic wastes are environment friendly.**
