

DELHI PUBLIC SCHOOL NEWTOWN

SESSION 2023-24

MONDAY TEST

CLASS: X

FULL MARKS: 40

SUBJECT: GEOGRAPHY

DATE: 10-07-23

General Instructions:

- This paper consists of two printed pages.
 - Copy the question number carefully before answering the questions.
 - Answers should be to the point.
-

Attempt all questions

Question 1

- (i) Define the following: [2]
(a) Contour (b) Scale
- (ii) Find out the four figure grid reference of the following: [2]
- (iii) Identify the drainage pattern of the following: [1]

Question 2 [5]

Choose the correct answer from the following:

- i. Red soil develops a reddish colour due to:
(a) Deforestation and overgrazing
(b) The presence of potash and magnesium
(c) Tropical monsoon climate
(d) A wide diffusion of iron in ancient crystalline and metamorphic rocks
- ii. The soil which is a mixture of sand, silt and clay is known as:
(a) Desert soil
(b) Loamy soil
(c) Sandy soil
(d) Clayey soil
- iii. Which of the following is a primary cause of soil degradation in irrigated cultivated land in India?
(a) Gully erosion
(b) Alkalisation and salinity of soil
(c) Wind erosion
(d) Silting of land

iv. Which of the following are found in the waterlogged areas?

- (a) Evergreen forests
- (b) Tropical Deciduous forest
- (c) Tropical thorn forest
- (d) Mangrove forest

v. Which forests do acacia, khair, neem, ber belong to?

- (a) Tropical evergreen forests
- (b) Tropical Deciduous forest
- (c) Tropical thorn forest
- (d) Mangrove forest

Question 3

[1x10=10]

On the outline map of India provided:

- a) Mark and label river Cauvery
- b) Shade and label the soil which prevails on the summits of the Eastern Ghats
- c) Mark and label river Brahmaputra
- d) Draw and label the Standard Meridian of India
- e) Mark and label a lagoon in the Eastern coastal plain
- f) Shade and label the Gulf of Mannar
- g) Shade and label an area of black soil
- h) Mark and label Karakoram Pass
- i) Mark and label the range between the west flowing rivers

Question 4

- (a) (i) Why does alluvial soil differ in texture?
(ii) State two cash crops that grow well in alluvial soil. [2]
- (b) Name the following: [3]
 - (i) The soil is sticky when wet and cracks when dry.
 - (ii) This soil is classified into khadar and bhangar.
 - (iii) When heavy rainfall washes away the topmost layer of the soil.
- (c) Define the following: [2]
 - (i) Soil fertility
 - (ii) Soil conservation
- (d) Give one geographical reason for each of the following: [3]
 - (i) Terrace farming is an ideal soil conservation method for hilly regions.
 - (ii) Wind is a common agent of soil erosion in the arid regions.
 - (iii) Black soil is a residual soil

Question 5

- (a) Name a forest which is found in the delta of river Ganga. Name two trees which are found here. [2]

- (b) (i) Give two reasons to explain as to why the tropical evergreen forests are difficult to exploit for commercial purposes.
(ii) Mention any one climatic requirement of tropical evergreen forests. [3]
- (c) (i) State one characteristic feature of the forest found in the Nilgiri Hills.
